## OBJECTIVES

Entry-level Software Developer with a strong foundation in programming and problem-solving. Proficient in Python, Java, SQL. Eager to apply academic knowledge and learn from experienced team members. Motivated to contribute to innovative projects and gain practical experience in software development.

---

## PROJECTS

### Placement Management System - PHP, SQL, Bootstrap

By effectively designing and implementing a web-based placement management system using PHP, Bootstrap, MySQL, and JavaScript, I contributed to bridging the gap between students and the placement cell. This system simplified the application process for students while enabling the placement cell to efficiently manage applications and student data. Through this project, learned about user experience design and the importance of creating a seamless interface.

### Online Voting System - Bootstrap, SQL, PHP

I've designed an Online Voting System using PHP, MySQL, JavaScript, and Bootstrap. It lets users register, log in, and vote in online polls. The system ensures each user can only vote once for each poll. The results are displayed at the end of the voting period. This project offers a user-friendly and secure way to conduct online voting.

## EDUCATION

### Master of Computer Application

2022 - 2024

#### CPGA - 8.26

St. Joseph's college (Autonomous) Tiruchirappalli - 620 002

### Bachelor of Computer Science

2019 - 2022

#### CPGA - 7.80

St. Joseph's college (Autonomous) Tiruchirappalli - 620 002

### HSC

2018 - 2019

#### Percentage - 80%

Shinehill Academy Matric Hr sec school Valayapatti - 637020

### SSLC

2016 - 2017

#### Percentage - 96%

Shinehill Academy Matric Hr sec school Valayapatti - 637020

---

## TECHNICAL SKILLS

Programming Languages	: Python, Core Java
Scripting Languages	: PHP
Other Languages	: HTML, CSS
Libraries	: Bootstrap
Database	: MYSQL, Sqlite3
Other Software	: Microsoft Word, PowerPoint, Excel, Visual Studio, Photoshop
