OBJECTIVES

Entry-level Software Developer with a strong foundation in programming and problem-solving. Eager to apply academic knowledge and learn from experienced team members. Motivated to contribute to innovative projects and gain practical experience in software development.

PROJECTS

Placement Management System - PHP, SQL, Bootstrap

By effectively designing and implementing a web-based Placement Management System using PHP, Bootstrap, SQL, and JavaScript, I contributed to bridging the gap between students and the placement cell. This system simplified the application process for students while enabling the placement cell to efficiently manage application.

Online Voting System - PHP, SQL, Bootstrap

I've designed an Online Voting System which is web application using PHP, MySQL, JavaScript, and Bootstrap. It lets users register, login, and vote in online. The system ensures each user can only vote once for each poll. The results are displayed at the end of the voting period. This project offers a user-friendly and secure way to conduct online voting.

EDUCATION

St. Joseph's college (Autonomous) Tiruchirappalli

Master of Computer Application Current CGPA - 8.26	**2024**
Bachelor of Computer Science CGPA - 7.80	**2022**

Shinehill Academy Matric Hr sec school Namakkal

HSC - 80%	**2019**
SSLC - 96%	**2017**

TECHNICAL SKILLS

- Programming Languages : Core Python, Core Java
- Scripting Language : PHP
- Libraries : Bootstrap
- Database : SQL
- Other Software : Microsoft Word, PowerPoint, Excel, Visual Studio

SOFT SKILLS

- Leadership
- Adaptability
- Time Management

ADDITIONAL

- Python Programming certification by **UDEMY**.
- Internship on Web Development using PHP and SQL(Techtron Soft pvt Ltd).
- Act as External Examiner under **Bharathidasan University** by **SUITS** program**.**
